

Sakhalin - 1 Pipeline Project Sakhalin Island, Russia

After close scrutiny and meticulous research, Tuff-N-Nuff rockshield was awarded a contract to provide rockshield protection for Exxon Mobil's Sakhalin - 1 Pipeline project. The 226 km pipeline is being built from the Chayvo "Onshore Processing Facility" (OPF) to the De Katri export terminal on the Russian mainland. Tuff-N-Nuff provided custom size pads to fully encircle the 24" diameter pipeline.
